

Shayn Ballagh
Statement of Interest
February 21, 2026

I am seeking re-election to the Board of Directors of Pathwise Credit Union to continue contributing my experience in governance, risk management, and executive leadership in support of our members.

Professionally, I bring over 26 years of leadership experience with Ontario Power Generation, where I currently serve as Vice President of Nuclear Fleet. My career has required disciplined decision-making, strong oversight, and accountability in highly regulated environments. These skills translate directly to board governance, particularly in areas of financial stewardship, risk oversight, and organizational resilience. As Chair of the Audit Committee, I have worked closely with management and auditors to strengthen controls, transparency, and member confidence.

I am motivated to continue serving because I believe strongly in Pathwise's member-focused mission and its role in providing trusted, values-based financial services. I value the collaborative culture of the Board and the opportunity to contribute meaningfully to the credit union's long-term sustainability.

Members should vote for me because I offer continuity, proven governance experience, and a strong commitment to acting in the best interests of Pathwise and its membership.
